Detalhamento técnico

Estrutura: madeira eucalipto e chapa de compensado proveniente de reflorestamento. Contorno externo da estrutura em chapa de Eucatex e MDF.

Assento: retrátil com corrediça metálica e abertura de 50 cm com trava de posição fechado e aberto. Apoio dianteiro com rodízios, percinta elástica italiana esticada com máquina (tensão uniforme) e mola nosag.

Almofadas de assento: fixas, espuma BIO 30 certificada e calandrada, manta de espuma soft macia e manta de fibra.

Encosto: fixo com espuma SOFT macia (permite usar sem a almofada solta).

Almofadas de encosto: soltas, fibra siliconada acondicionada em saco de TNT bipartido.

Pés: sapatas de madeira ocultas.

Tecido: cortado com sistema americano CNC (alto padrão de qualidade e perfeição).

Acabamento: detalhes e acabamentos em costura saco.

Montagem: parafusos porca garra (facilita a desmontagem e não agride a madeira). Medidas acima de 2000 mm forro com velcro (facilita a montagem e desmontagem). Módulos encaixados com engates de metal.

Complemento: opcional Torre Multiplug no braço.
